## **Mental Health Services Act**

Community Services and Supports  
MHSA Housing Application  
**Supportive Services Plan**

May 2008

## **MHSA Housing Application Introduction and Project Overview**

The Mental Health Services Act (MHSA) is a statewide initiative, passed by voters in 2004, to expand mental health services in California. The intent is to transform how mental health care is accessed and delivered to people of all ages who suffer from serious mental illness or serious emotional disorders. Components of MHSA include: Community Services and Support; including a Housing Component, Workforce Education and Training, Capitol Facilities & Information Technology, Prevention and Early Intervention, and Innovation.

In Stanislaus County, an extensive planning process was conducted that included input from 1500 community stakeholders for the first component to be implemented: Community Services and Supports (CSS). The Three-Year CSS Plan was submitted to State Department of Mental Health in October 2005 and approved for local implementation in January 2006. Implementation and delivery of services is ongoing.

During the initial Community Planning Process in 2005 Stanislaus County BHRS conducted an open stakeholder process with the support and partnership of the Stanislaus County Mental Health Board. People of all ages and diverse cultural and ethnic groups gave input during this process. Among the many needs identified, housing and homelessness were established as priority, to be addressed for all age groups.

To begin to address the need right away, an Outreach and Engagement crisis housing program was established in the CSS Plan. This program would expand an existing short-term, crisis housing program to include individuals who needed crisis housing for 10-14 days. At the time, stakeholders were informed that additional CSS funds were expected from the State to specifically fund supported housing. Further that BHRS would continue to work with community partners to be ready for those funds when they became available.

BHRS has an established history of collaboration with key community partners in the development of supported housing since 1997. The first supported housing project (Steve's House) is still in operation today. Discussions are ongoing with partners to continuously investigate opportunities for funding and suitable properties for development into supported housing sites. In 2005 these partners finalized a 10-year plan to end homelessness in Stanislaus County.

In the spring of 2007, California Department of Mental Health notified counties (Information Notice 07-06) that planning estimates were available for initial funding of the MHSA Housing Program as part of the Community Services and Supports (CSS) component. Stanislaus County is eligible to receive \$4.8 million for supported housing projects.

The following proposal is faithful to stakeholder input obtained during the robust community planning process in 2005. It is anticipated that this is one of three supported housing projects that will be proposed and additional projects are currently being developed.

Working from the BHRS Vision and Mission with input from community partners and guidance from DMH regulations, this MHSA Housing Application - Supportive Services Plan was developed. A Feedback Form is included, in Spanish and English. Comment on the proposal is invited.

## **Development Summary Form**

County Mental Health Department:	Stanislaus County Behavioral Health and Recovery Services
Name of Development:	<b><u>Lincoln Avenue Seniors Project</u></b>
Site Address:	421 Lincoln Avenue Modesto, California 9535?
Development Sponsor:	Stanislaus County Affordable Housing Corporation (StanCo)
Development Developer:	Stanislaus County Affordable Housing Corporation (StanCo)
Primary Service Provider:	Behavioral Health & Recovery Services
MHSA Service Provider:	Behavioral Health & Recovery Services – Senior Access and Resource Team & Housing Supports and Services Team
Type of Development:	New construction Rental Housing/ Permanent Supportive Housing Apartment Buildings with Community Center
Total Units:	18-unit Permanent Supportive Housing Project
Total MHSA Units:	18-unit Single Population Development
Total Cost of Development:	\$3,761,708.15
Amount of MHSA Funds Requested:	\$1,128,512,00
Request MHSA Funds for Capitalized Operating Support:	Yes
Other Rental Subsidy Sources:	Stanislaus Affordable Housing Corporation will apply for Project-based ShelterPlus Care for all units
Target Population:	Older Adults
County Contact:	Pam Esparza, BHRS Housing Coordinator Adrian Carroll, MFT, Chief, Adult/Older Adult SOC

## **4.2.1 Project Overview**

### **A) Development Summary Form- See attached Page 2**

### **B) Narrative Development Description**

Provide a thorough discussion of the development, including, at a minimum, the housing and service goals of the development, characteristics of tenants to be served, the type of housing that will be provided, how the building(s) in which housing and services will be provided (location, building type, layout, features, etc) will meet the housing and service needs of the tenants, the primary service provider and other development partners, and development financing.

Lincoln Avenue is a new 18-unit Permanent Supportive Housing Project that will serve Mental Health Services Act (MHSA) target population older adults. The project will contain 18 units: 8 one-bedroom and 10 efficiency (studio) units along with a community center, laundry area and living quarters for an on-site manager.

The project site is located at 421 Lincoln Avenue, Modesto, California, one half mile north of Yosemite Boulevard. Yosemite Boulevard is a major commercial thoroughfare in the Modesto community with two different bus lines that run to the downtown transfer station. There are several shopping centers within 2-3 blocks of this site, schools and city parks located nearby. The MHSA Older Adult Full Service Partnership program is located 3.3 miles from the housing site. Stanislaus County Behavioral Health and Recovery Services administrative offices, Community Emergency Response Team and Warm Line/On-site Peer Support Services, Housing Support staff and Consumer/Family Employment & Empowerment Center are located 3.9 miles away. Public transportation is available to all of these locations.

The MHSA housing project will serve older adult men and women who are homeless and/or at risk of homelessness and who have a serious mental illness. Qualifying mental health diagnosis and other target population characteristics must be consistent with the Stanislaus County Three-Year MHSA Community Services and Supports (CSS) Plan and the MHSA definition of target population. All potential residents must be referred to the housing project through the BHRS Housing & Supports Services program. Priority will be given to MHSA Full Service Partnership program participants. Occupancy will be limited to those whose income does not exceed 30% of the area median income level.

#### **Supportive Services Program**

The Housing & Supports Services program will provide housing and advocacy supports to residents at the Lincoln Avenue Project with an emphasis on client-centered, wellness-focused plans.

Partnership between service recipients, the Housing & Supports Services Program and BHRS programs will be central to achieving the goal of client-directed service delivery. Anticipated outcomes are to support residents in reaching their wellness goals, a sense of belonging in the community, reduced hospitalizations and increased employment and/or other meaningful activities.

The Housing & Supports Services program will offer services to residents on-site as well as off-site, in one-to-one contacts, as well as group learning situations. The types of services that will be available are: assessment and evaluation, access to 24/7 crisis intervention, personal service

coordination, teaching of independent living skills. Services related to advocacy, referral and assistance with housing, employment and benefits, emergency food and clothing, money management, transportation assistance, health and recovery services, peer support, and housing search are all part of supportive services offered. Regular community meetings with tenants will be scheduled on a weekly basis and will occur with each resident not less than once a month. Meetings with residents may also include family members and other service team members working with residents. There will be community- and complex-based social opportunities with a goal of reducing isolation and increasing a sense of inclusion in the community.

Senior Access and Resource Team is the older adult Full Service Partnership team and offers a multi-disciplinary approach. Team members include 1 program coordinator, 2 behavioral health specialists, 2 mental health clinicians, 2 psychiatric nurses and a half-time psychiatrist. The team offers 24/7, wrap-around funding, recovery oriented, client driven, and culturally competent services designed to provide an integrated service experience for service recipients and their families. This team will be the service provider for most of the residents living at Lincoln Avenue, however, other BHRS/contractor programs may also provide service to the older adult target population.

Participation in services, by residents, is voluntary. Services will be offered to all BHRS eligible tenants and provided to all who express desire for the service.

#### Unit and Site Design

The Lincoln Avenue site has 18 units dedicated to permanent supportive housing for MHSA target population residents. There are 8 one-bedroom units at 624 sq. ft. each and 10 efficiency (studio) units at 418 sq. ft. All units will contain a kitchen, living/dining room and bathroom and are intended for individual residents. The complex sits on an .83-acre lot with 3 single story buildings grouped together. Building one is 4,000 sq. ft. and consists of 4 studio units and 4 one-bedroom units. Building two is 4,800 sq. ft. and consists of 6 studio units and 4 one-bedroom units. Building three is a 2,450 sq. ft. community center.

The community center will serve as the focal point for socialization and community building in the complex. The community center will also include office space for supportive services staff and the property manager, laundry facilities, a large activity room, kitchen, and handicapped accessible restroom facility. Adjacent to the community center is an outdoor covered patio/BBQ area available for use by all residents and their family members. The site will have 18 parking spaces, two of which are reserved for handicapped. The parking area is open and well lit.

#### Project Partners

Stanislaus County Affordable Housing Corporation (STANCO) is a local non-profit affordable housing developer and property management agency that will be the project sponsor. StanCo will also be the lead developer during development phase and property manager upon completion.

Stanislaus County Behavioral Health & Recovery Services (BHRS) will be the lead service provider and on-site support for the Lincoln Avenue project. Local organizational providers, contracting with BHRS, may also provide services to residents, on-site and off-site.

In addition to this application for capital funding and operating support from MHSA Housing program, STANCO will also seek funds from the City of Modesto Federal Home Funds, City of Modesto Redevelopment Housing Set Aside Funds and Federal Home Bank.

#### **4.2.5 Section D: MHSA Housing Program Supportive Housing and Services Information**

##### **D.1 Consistency with Three-year Program and Expenditure Plan**

**Describe how the proposed supportive housing development is consistent with the sponsoring county mental health department's CSS planning process and approved Three-year Program and Expenditure Plan. Provide specific information regarding how the development meets priorities and goals that were identified in the Plan.**

During the initial Community Planning Process in 2005, Stanislaus County Behavioral Health and Recovery Services conducted an open stakeholder process with the support and partnership of the Stanislaus County Mental Health Board. Approximately 1500 stakeholders participated in the initial Community Planning Process that included a variety of community outreach methods. Stakeholders were informed that an MHSA Housing component for permanent supported housing was expected in the future. Input on the need for housing was encouraged and included throughout planning for Community Services and Support (CSS). This proposed MHSA Housing Component project is based on stakeholder input obtained during community planning in 2005. For unserved/underserved individuals in all age groups, the issues of housing and homelessness were identified as prioritized needs. To begin to address the need right away, Outreach and Engagement funds were used to establish an extended-stay crisis housing service.

Lincoln Avenue Project is the first of several planned permanent supportive housing projects that will begin to address the need for housing that was identified and prioritized by community stakeholders in 2005. Stanislaus County's MHSA-CSS Three-year Plan includes 5 Full Service Partnership Programs, 4 General System Development Programs and 2 Outreach and Engagement Programs that have successfully worked in partnership with the community since the Plan was approved in January 2006. Supportive services to residents in this housing project will continue to fulfill anticipated outcomes of wellness, recovery, resiliency, reduced hospitalization, reduced incarceration, increased employment, and re-integration into community life.

##### **D.2 Description of Target Population to be Served**

**Describe the target population you will serve in your MHSA Housing Program supportive housing development, including the special needs and income level of the population.**

The MHSA housing project at 421 Lincoln Avenue will serve older adult men and women who are homeless and/or at risk of homelessness and who have a serious mental illness. Qualifying mental health diagnosis and other target population characteristics must be consistent with the Stanislaus County Three-year MHSA Community Services and Supports (CSS) Plan and the MHSA definition of target population. Some residents may have family members that will reside with them, however many lack social supports and have lost connection with family members. Many of these individuals experience multiple challenges such as: substance use/abuse co-occurring with medical issues. Individuals

in this target population may have frequent hospitalizations, law enforcement contact and hospital emergency rooms visits. For many, psychiatric hospitalization or emergency room visits have been their primary source of care, and as a result, their illnesses may have gone untreated in any meaningful way.

The majority of residents will be low or no income, have little or no work history and/or have lost connection with Social Security Administration for benefits. Tenancy in this MHSA housing complex will be specifically limited to those individuals whose income does not exceed 30% of the area median income.

### **D.3 Tenant Selection Plan**

**Application must present a detailed Tenant Selection Plan that is specific to the development for which funds are being requested and is jointly developed by the development partners, including the county mental health department, the primary service provider, the property manager, and the borrower.**

**The plan must be in narrative form and must describe:**

- **Referrals - How prospective tenants will be referred to and selected for your MHSA Housing Program housing development, including the tenancy application process, wait list procedure, and process for screening and evaluating tenants for participation;**

#### **Referral, Application & Selection Process**

All Lincoln Avenue units are reserved for older adult/transition-aged older adults with mental illness that meet Mental Health Services Act (MHSA) target population criteria.

Any person contacting the project directly will be referred to the Housing & Supports Services for screening, application and selection process information. Referrals from service providers will be directed to the Housing & Supports Services for screening, application and selection process information.

Housing & Supports Services will work closely with BHRS providers to attract eligible potential tenants. Referrals will be sought by using proven outreach strategies to engage members of the target populations, including those among the unserved or underserved ethnic communities and other diverse populations. Many potential tenants have been homeless or failed in earlier attempts to live in independent housing. For this reason, the tenant selection process will be much more tolerant and forgiving than a traditional rental housing criteria.

#### **Screening, Evaluation & Waiting List Process**

Approximately 6 to 8 months prior to completion of construction, Housing & Supports Services staff will assemble a priority list of potential tenants from their existing Transitional Housing and/or Shelter Plus Care waiting lists. Individuals on a waiting list will have the option of moving into the complex or continue their same position on the waiting list for future openings at Lincoln Avenue.

Housing & Supports Services will refer eligible applicants from the waiting list to STANCO for further evaluation, screening and application. After initial rent-up of the project, applications will be processed in the order in which they are received. If no units are available, eligible applicants will be placed on the waiting list in the order of receipt of initial application. Applicants will be given written notification of assigned waiting list number. When STANCO receives notice of a pending departure from an existing tenant, the property manager will inform the Housing &

Supports Services staff of the available unit and the names of eligible applicants on the waiting list. Housing & Supports Services staff will confirm waiting list priority and notify the applicant of the available housing unit and instruction for responding to the opening. The applicant's service provider will also be notified. Processing of credit and criminal background checks does not assure, nor does it imply, that an application will be approved. If the applicant declines the available unit, Housing & Supports Services staff will then notify the next applicant on the waiting list.

#### Notice of Decision

Applicants will be given written notification of a specific occupancy date or a reason for denial. This notification will occur after credit and criminal background checks are reviewed. All notices of denial will include information on the right to appeal and a reminder notice of the right to reasonable accommodation for disability. STANCO will inform Housing & Supports Service of the decision. Housing & Supports Service will inform the service provider who will inform the applicant of the decision. If a move-in date is set, the service provider will assist the tenant in making arrangements for and completing the move-in process.

- **Program Eligibility - The criteria that will be used to determine a tenant's eligibility for participation in your development;**
- **How those criteria are consistent with both the county CSS plan and MHSA Housing Program target populations;**

The Tenant Selection Plan has been developed collaboratively between Behavioral Health and Recovery Services - and STANCO.

For eligibility in the Lincoln Avenue Project, individuals must be a low-income older adult or transition-aged older adult (55 – 59 years) who are homeless or at risk of homelessness. If the older adult has family members living with them, they can be included in the request for housing application. There is a limit to the number of family members that may live with the tenant that is based on the size of the unit. Applicants must also be individuals with untreated or under-treated serious mental illness and co-occurring disorders (mental illness and substance abuse or mental illness and developmental disability).

Factors contributing to MHSA eligibility include:

- ✓ Existence of functional impairments due to untreated or under-treated mental illness that prevents engagement in meaningful activities and inability to remain in housing in the past.
- ✓ Existence of pattern of frequent incarceration or psychiatric hospitalization due to untreated or under-treated illness that prevents engagement in meaningful activities and inability to remain in housing in the past.
- ✓ Special consideration will be given to the ethnically and culturally unserved/underserved population as identified by our CSS plan.
- ✓ 'Currently Homeless' is defined as: lacking fixed, regular and adequate nighttime residence or having nighttime residence that is in one of the following categories: living on the streets; in parks, emergency shelters, living in vehicle, staying in motel, in a treatment program, or incarcerated AND being released within one week with no residence or lack of resources/support to access housing. Living with relative/friend on a temporary basis.

- **Property Management Screening - Your reasonable accommodation policies and protocols as they relate to targeting and tenant screening;**

All applicants will be given information regarding their right to reasonable accommodation, as well as, their right to appeal screening decisions. All credit, background and/or landlord history information obtained will be considered in the light of the project's commitment to providing housing for individuals with special needs and will be more forgiving than a traditional rental housing landlords. Applicants with negative background information will have the opportunity, with the support of the service provider and Housing & Supports Services staff, to demonstrate that past issues were directly related to their mental illness. They may request reasonable accommodations for issues related to their mental illness. A plan of monitoring or correction maybe be developed as a condition of occupancy.

- **Fair Housing - How fair housing and MHSA Housing Program target population requirements will be met;**

This project will comply with all federal, state, and local fair housing and civil rights laws, as well as with all equal opportunity requirements. Tenant selection will be consistent with the Civil Rights Act of 1964, and the United States Housing Act of 1937 and the Unruh Civil Rights Act (CC 51) of 1959. Tenancy shall not be denied on the basis of race, ancestry, creed, color, national origin, age, sex, sexual preference, marital or family status, source of income, religion, national origin, physical or mental disability, Acquired Immune Deficiency syndrome or AIDS related conditions. All persons shall be entitled to equal treatment regarding accommodations, advantages, facilities, privileges or services.

The project will not discriminate against prospective tenants on the basis of their receipt of, or eligibility for housing assistance under any federal, state, or local housing assistance program, or on the basis that prospective tenants have minor children. While the property will not discriminate against those using Section 8 certificates or vouchers or other rental assistance, all applicants with such rental assistance must meet all eligibility requirements.

- **Right to Appeal - Your appeals process for individuals who are denied tenancy in your development.**

All applicants will be given information of their rights to reasonable accommodation as well as their right to appeal screening decisions. All credit, background and/or landlord history information obtained will be considered in the light of the project's commitment to providing housing for individuals with special needs and will be much more forgiving than a traditional landlord setting. Applicants with negative background information will have the opportunity, with the support of the service provider and Housing & Supports Services staff, to demonstrate that past behavior causing those issues were directly related to their disability and request reasonable accommodations.

In the case of a denial notification, applicants will be entitled to receive a copy of the County's standard Complaint/Grievance/Appeal form. In such cases, Stanislaus County's Patient Rights department could assist an applicant in appealing the denials.

## **SECTION D.3. a     Tenant Referral and Certification Process**

Following the narrative Tenant Selection Plan, include a copy of the county mental health department's Tenant Referral and Certification Process that applies to your development. This county-developed Tenant Referral and Certification Process must, at a minimum:

- **Describe how an individual applies to the county to become certified as eligible for the MHSA Housing Program;**

Individuals who are interested in the MHSA Housing Program may seek referrals through their current treatment service provider. Housing & Supports Services contact information maybe found on the Network of Care website, at any BHRS service location and in the local telephone director. Contact information is available from BHRS Directory of Services which is directly down-loadable from the BHRS website. Housing & Supports Services staff have an established history of working closely and collaboratively with BHRS and Organizational Contractor's service teams.

- **Describe the process utilized by the county mental health department to determine whether the individual meets its requirements for certification as an MHSA Housing Program tenant;**

Stanislaus County Behavioral Health and Recovery Services is committed to utilizing a standardized Tenant Certification Application for all potential tenants of the MHSA funded housing units. Following initial receipt of a referral, Housing & Supports Services staff will verify and document existence of a mental illness and current homeless status.

### **Certification of Diagnosis**

Housing & Supports Services will access Stanislaus County BHRS records that will include the mental health diagnosis as determined by BHRS treatment teams or other Stanislaus County BHRS contracted mental health service providers.

### **Certification for Homelessness**

Housing & Supports Services will obtain written verification from the referring treatment service provider that the client is homeless or at risk of homelessness defined as the following: lacking fixed, regular and adequate nighttime residence or having nighttime residence that is in one of the following categories: living on the streets; in parks, emergency shelters, living in vehicle, staying in motel, in a treatment program, or incarcerated AND being released within one week with no residence or lack of resources/support to access housing. Living with relative/friend on a temporary basis. Living in a crisis and/or transitional housing program

- **Describe how a wait list of potential tenants who have been certified as eligible for the MHSA Housing Program will be established and maintained;**

BHRS Housing & Supports Services will refer certified eligible applicants to STANCO. After initial rent-up of the project, applications will be processed in the order in which they are received. If no units are available, eligible applicants will be placed on the waiting list. Applicants

will be given written notification of assigned waiting list number. When STANCO receives notice of a pending vacancy, the property management will inform Housing & Supports Services of the available rental unit and the names of the next eligible applicant on the waiting list. Housing & Supports Services will provide the applicant with notification of an available housing unit and instruction for response. The eligible applicant's service provider will also be notified. The processing of credit and criminal background checks does not assure, nor does it imply, that an

application will be approved. If the applicant declines the available unit, the Housing & Supports Services will then notify the next applicant on the waiting list.

- **Describe how the county mental health department will refer tenants certified as eligible to the development; this description should discuss the county's referral process during the rent-up period and on an ongoing basis;**

### Referrals

All Lincoln Avenue units are reserved for older adult/transition older adults individuals, and family members living with them. Eligible tenants must have serious mental illness and must meet Mental Health Services Act (MHSA) target population criteria. All referrals will be directed to the Housing & Supports Services for screening of eligibility requirements. Any person contacting the project directly will be given the contact information to the Housing & Supports Services. Since potential tenants have been homeless and/or at risk of homelessness, tenant selection criteria will be much more forgiving than traditional rental housing criteria.

Housing & Supports Services will work closely with BHRS providers in attracting eligible potential tenants. A variety of proven outreach strategies will be used to engage individuals from unserved or underserved ethnic communities and other diverse populations.

For initial rent-up, the Housing & Supports Service will put together a priority list from their existing Transitional Housing and/or Shelter Plus Care wait list approximately 6 to 8 months prior to completion of construction. Individuals who are on the waiting list will have the option of moving into the complex or continue on the current waiting list in their current position on the list.

- **If the county mental health department designates specific non-county agencies, such as MHSA qualified service providers, to certify an individual's eligibility for tenancy in a MHSA Housing Program development, identify the agency(ies) and describe how they will conduct the required activities.**

Not Applicable

## **D.4 Supportive Services Plan**

**Provide a narrative that describes your approach to providing supportive services to the MHSA Housing Program target population. This narrative must include:**

- **A description of services to be delivered, including where and how they will be delivered, the frequency with which they will be made available to tenants, the primary service provider, and other community linkages. The narrative must also demonstrate an understanding of MHSA Housing Program target population needs/issues in permanent supportive housing (both Full Service Partnership and non-FSP) and must describe the process for assessing their supportive services needs.**

Three philosophical orientations drive the client-centered approach; 1) housing is first priority, 2) services are voluntary and 3) Recovery is possible. The overall objectives of the supportive services plan are designed to provide a structure of support to the individual. The main goal is to assist individuals to successfully retain long-term housing. This housing program is developed to assist individuals with complex and long-term social and medical issues. Each person's history of homelessness and untreated mental illness will require an individualized approach to

assessment of needs and goals. Services and goals for each individual will be developed in partnership with the tenant and will utilize a strengths-based approach.

A multi-disciplinary team will provide the services. The multi-disciplinary staff will include a psychiatrist, nurse, mental health clinicians, consumers, and personal services coordinators. The service team will reflect the ethnic and cultural make-up of the tenants. While all services will be voluntary, a range of mental health services shall be offered and provided to all eligible tenants who express desire for such services.

The Supportive Services Program will include an approach to individual goal/service planning that includes but is not limited to: assessment and evaluation, crisis intervention and mental health services, case management, service coordination for needs such as; emergency assistance with food and clothing, assistance in accessing benefits, independent living skills development, transportation assistance, money management and financial education, medical assessment, substance abuse treatment, employment services and opportunities, leadership development, and community building.

Other services are available as needed. Services will occur primarily on-site and occur with a frequency that is individually determined, but no less than weekly. Transportation will be provided to off-site services, as needed. Supportive services staff will also assist tenants in accessing outside services as needed. Assertive engagement focused on development of trusting, supportive relationships will be provided to those individuals who initially decline services.

- **Describe the plan for helping tenants maintain their housing and achieve independence, including employment services, budgeting and financial training, educational opportunities, assistance in obtaining or maintaining benefits to which they are, or may be, entitled, and other community services that will be made available to tenants.**

The Housing & Supports Services team operates from a strength-based approach that encourages and supports choice, empowerment and focuses on the strengths of the individual. This approach has proven successful in guiding individuals into recovery, in fostering resiliency and in the promotion of overall wellness in the lives of individuals.

The staff consists of 1 FTE Program Manager, 1 FTE Team Leader, 4.5 FTE Housing Specialist, 2 FTE Benefits Specialist, 1 FTE Monitoring Specialist who are experienced in working closely and collaboratively with community, BHRS program staff, organizational provider service staff, and housing resources in Stanislaus County.

Housing & Supports Services program offers services to residents on-site as well as off-site, in one-to-one contacts and in groups. The types of service that will be available are; assessment and evaluation, access to 24/7 availability for crisis intervention, personal service coordination, and teaching of independent living skills. Services related to advocacy, referral and assistance with housing, employment and benefits, emergency food and clothing, money management, transportation assistance, health and recovery services, peer support, housing search are all part of supportive services also.

All service recipients in this housing project have direct access to BHRS Employment Services Program. Operated by Turning Point Community Programs, the employment service provides

career exploration, supported employment, community employment, supported education, and benefits counseling related to entry or re-entry to the work force.

- **A description of how services will support housing stability, as well as wellness, recovery and resiliency, including services that are facilitated by peers and/or consumers)**

Residents will benefit from a number of educational groups utilizing proven course material. There are two curricula currently being considered for use in this Supportive Services Plan.

Neuroscience Treatment Team Partnership (NTTP) a program that has been effectively implemented by one of our MHSA Full Service Partnership programs. NTTP is an evidence-based, psycho-educational program developed by the University of Medicine and Dentistry of New Jersey. NTTP includes a consumer-oriented, empowering, recovery-oriented approach that stresses both personal self-management of psychiatric illness as well as physical wellness strategies.

Another program being considered is the Substance Abuse Management Module (SAMM) This program is suitable for all types of individuals who abuse alcohol and drugs and is designed and delivered to meet the needs of individuals who have dual diagnosis of mental disorders complicated by drug or alcohol use or abuse. Facilitation of the modules is most effective when done by consumers with experience achieving recovery. The Substance Abuse Management Module has been implemented by the Integrated Forensic Team, an MHSA Full Service Partnership program.

- **Strategies for engaging in supportive services and in community life. Should include anticipated frequency of contact between supportive services staff and MHSA Housing Program tenants. (Participation in services may not be a condition of occupancy). Include engagement strategies that provide opportunities for tenant choice.**

Stanislaus County BHRS has a long history of engaging homeless and at risk of homelessness individuals using multiple resources such as outreach and engagement, short-term shelter (respite center), motel voucher, and transitional housing. These efforts are in partnerships with other community agencies such as Law Enforcement, Salvation Army, Community Housing and Support Services.

The Housing & Supports Services program will offer services to residents on-site as well as off-site, in one-to-one contacts, as well as, group learning situations and occur with a frequency that is individually determined, but no less than weekly. Recognizing that some individuals may be slow to trust, one to one engagement may simply begin with the use of a telephone or some transportation.

- **Describe the plan for communication between the service provider and property management regarding the status of tenants in the development and any building and /or community issues that need attention. This plan should include regularly scheduled meetings among the development partners, a description of service coordination for the development if there is more than one service provider, and identification of a single point of contact for communicating and coordinating supportive services.**

Stanislaus County BHRS and STANCO have had a collaborative relationship for over eight years. Together we have developed both transitional and permanent housing projects including a 9-bed Respite Center.

STANCO has been a supportive partner of BHRS Housing Services as well as the Employment Program. STANCO contracted with BHRS Employment Service Program for landscaping and maintenance at many of their housing sites. This has been a valuable opportunity for BHRS consumers seeking career development, on-the-job training and employment.

The long-standing partnership between the two agencies is a central element in ensuring that tenants are offered an environment that will contribute to successful retention of housing. Another critical element that emerges from this strong partnership is the sense of community within the complex that is fostered.

Housing & Supports Services will be the single point of contact between the property management and the service providers. To ensure open and regular communication, the Housing & Supports Services will work closely with all partners. The team will use a flexible approach that can be adjusted to meet the needs of residents. Initially, two key structures will define this support:

- 1) Housing & Support Services staff will meet, as a team, weekly to coordinate services and address issues related to improving residence tenancy and overall housing community well being.
- 2) Housing & Support Services staff will meet monthly with the property management or more frequently as needed to discuss any property or tenant issues.

Clear delineation of roles and responsibilities between services providers and property management will support housing retention for tenants. Housing & Supports Services will assist in defining roles and responsibilities of the partners and will be responsible for successful coordination of services delivery to ensure that residents needs and interests are met in a timely, ongoing and effective way.

Ongoing development of partnerships that create a successful MHSA Housing Program will be under the direct supervision of the Chief of the Adult System of Care. A Housing Program Manager will be identified to be directly accountable to the ASOC Chief for all functions related to development and ongoing operations of the Housing Program. The Housing & Support Services under the direct supervision of the Housing Program Manager and will have daily contact for close coordination of services.

Continuously working from the BHRS Vision and Mission, ongoing input from community partners, service recipients and their families and guidance from DMH regulations, the BHRS MHSA Housing Program will provide quality services driven by essential elements of MHSA: community collaboration, cultural competency, client/family-driven services, wellness, recovery and resiliency and an integrated service experience for service recipients

## D.5 Supportive Services Chart

Supportive Services	Target Population	Service Provider(s)	Service Location
Service Coordination	All residents have services available to them	BHRS &/or MHSA provider selected, Housing & Supports Service	On-site
Intake/Assessment	All residents have services available to them	BHRS &/or MHSA provider selected, Housing & Supports Service	On-site
Mental Health Services	All residents have services available to them	BHRS &/or MHSA provider selected, Housing & Supports Service	On-site/off-site as needed; transportation provided or public transportation based on client choice
Case Management Services	All residents have services available to them	BHRS &/or MHSA provider selected, Housing & Supports Service	On-site
Housing Retention Services	All residents have services available to them	BHRS Housing & Supports Service	On-site
Financial Education	All residents have services available to them	BHRS Housing & Supports Service	On-site
